

Me and My Community

Information for Learners, Families and Carers

If you enjoy studying your community, this could be the class for you.

There are usually about 7 or 8 learners in a group. We like you to join in everything but if there are things you don't like doing you don't have to join in. It's not a problem.

What we do depends on what the learners can already do and what they are interested in.

These are things we usually do.

- Identifying where we live & our locality
- Investigating how we travel locally by foot, bus or train
- Researching local jobs & services e.g. police, fire fighters, shops
- Researching information & if possible visits to local shops & services e.g. eco centres, local libraries,
- Receiving guest speakers from our communities e.g. police, fire fighters, supermarkets
- Using the internet to research our communities e.g. Google Earth
- Identifying hazards in the community & staying safe
