

Pottery

Information for Learners, Families and Carers

If you want to learn how to make your own pottery and make ceramic gifts for your family and friends, this could be the class for you. There are usually about 6 to 8 learners in a group.

You need to be ready to get messy working with clay, hand tools and a variety of pigments and glazes to decorate your pots. There is also a small charge for materials used.

We create a wide range of pottery items, such as – pots, plates, bowls, cups, vases, tiles, animal figures and sculptures, Christmas tree decorations, photo frames, garden mobiles, bird feeders and all sorts of different ceramics. All our pots are glazed and fired and will last for years!

Here are examples of what we are creating in our class:
