

# What's in the News

Information for Learners, Families and Carers

## Are you interested in the News?

We are a group of about 6-7 learners learning about national news and local news. We will discuss and debate news stories, the way news is made, magazines and our own news. We will also produce a small newspaper about your group and the centre. If you like watching news on TV or reading the papers then this may be for you.

Activities we will do include:

- Watching and reading about the news
- Discussion
- Writing
- Learning about the ways news is made
- Debating opinions
- Role play
- Making a newspaper
